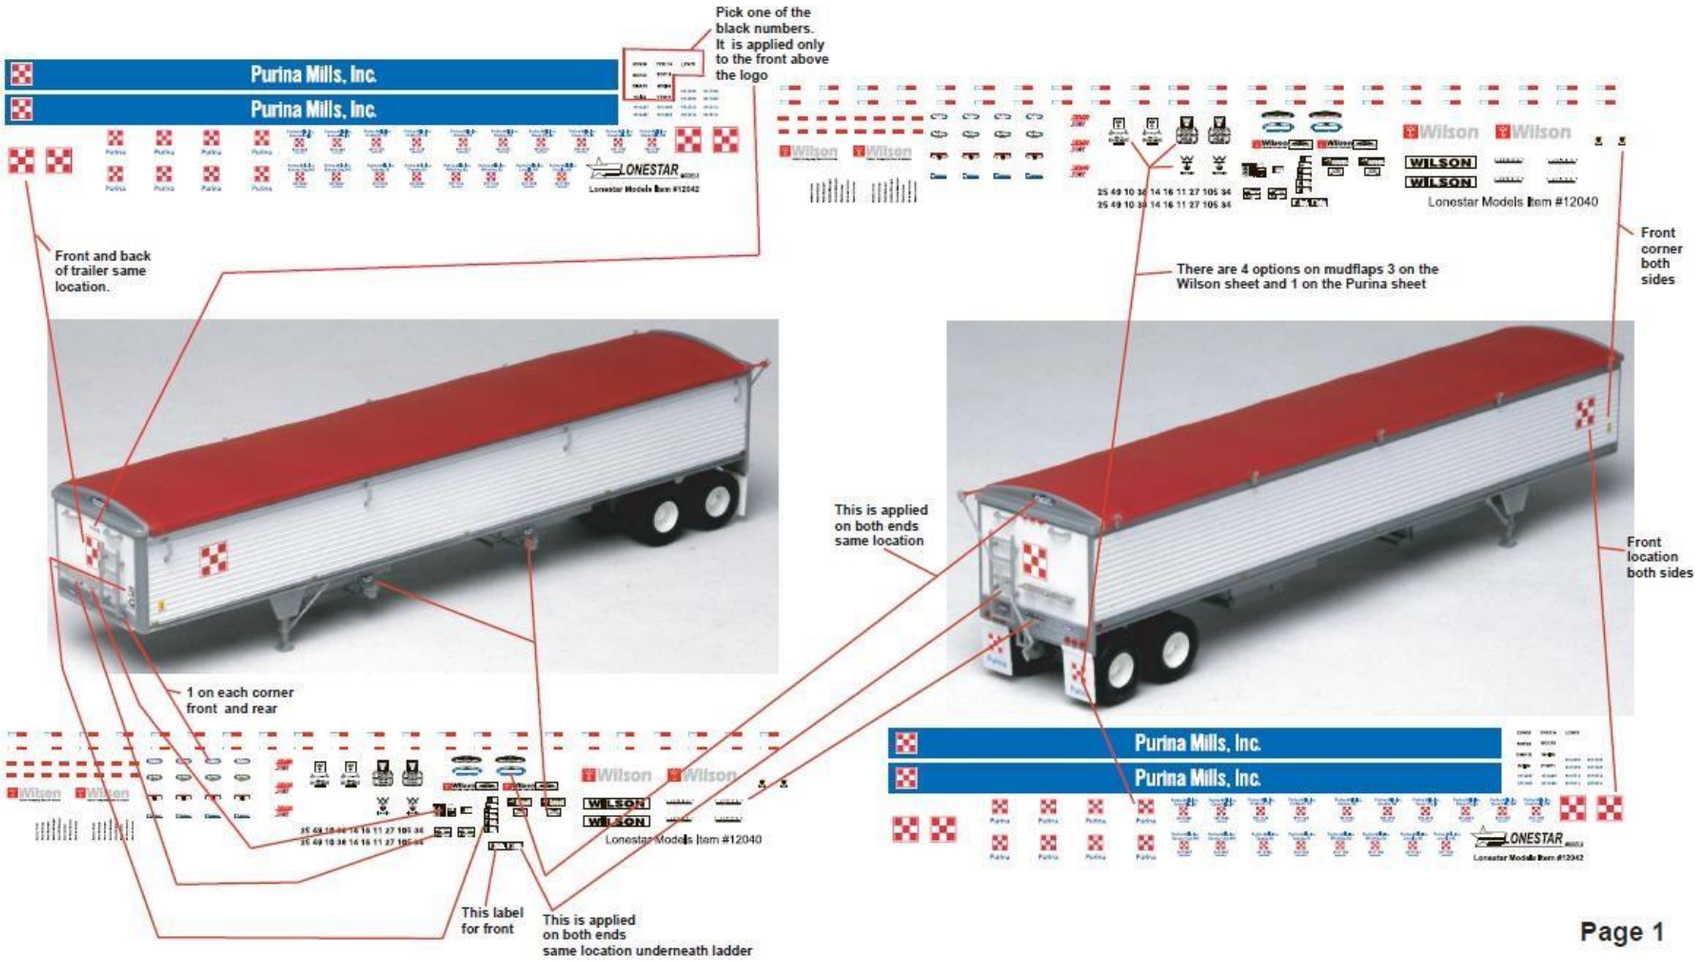
Decal Placement Guide For Purina Mills Kit #6035

Please use this guide to complete the decoration of your grain trailer model. All graphics needed are located on the decal sheets enclosed in your kit.

Please note: To facilitate minimal crossover diagram lines, this instruction sheet utilizes duplicate decal images. Your kit only comes with one set of decals. A color version of this sheet is available on our website. www.lonestarmodelsinc.com



Extra decals are included to decorate a Purina truck tractor (not included in kit) and service/delivery vehicles (also not included in kit).
