

Decal Placement Guide For North American Ethanol (NAE) Kit #6021

Please use this guide to complete the decoration of your grain trailer model. The side panel stripe and NAE logo are already pad printed on your model. All other graphics needed to complete your model are located on the decal sheets enclosed in your kit.

sheets enclosed in your kit.

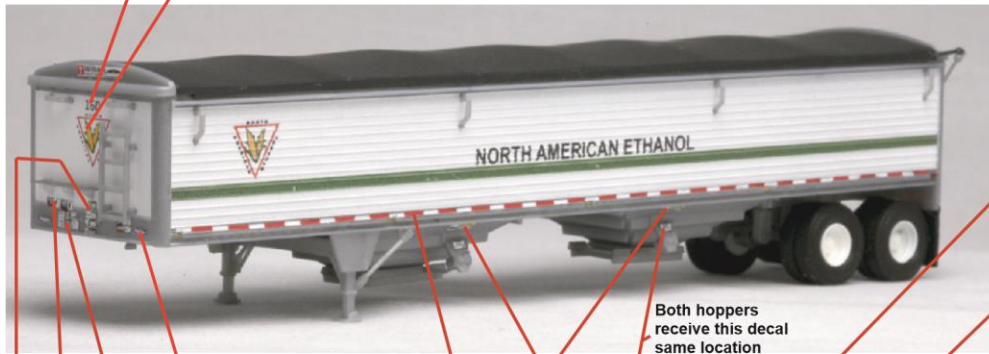

Please note: To facilitate minimal crossover diagram lines, this instruction sheet utilizes duplicate decal images for clarity. Your kit only comes with one set of decals. A color version of this sheet is available on our website - www.lonestarmodelsinc.com Extra decals are included to decorate a NAE truck tractor (not included in kit) and service/delivery vehicles (also not included in kit).
