

Use photos for decal placement.

Recommended Paints

Testors Classic Black: Bucket, cab protector, exhaust stack, rear vent, operator's seat, hand controls

Testors Chevrolet Eng. Red: Wheels, engine cover

Testors Steel Non Buffing Metalizer: (OK to use hand brush) Backup lights (photo 2), front lights if added (see below)

Testors Flat Black: Tires

Testors Classic White: Overall machine color

Testors Stop Light Red Metallic: All 6 light molds near bottom of engine cover

Suggested options not included in GHQ kit:

Instrument Panel and Front Lights: Recommend on instrument panel decals cut out decal but do not remove from paper. Glue decal on backing paper into upper corners inside cab guard, facing operator seat. Paint decal backing paper, which will be facing the front, gloss black. Cut small plastic rectangles, paint silver, and glue to front as shown in photo 3

Hand grab: Detail Associates #6602 Grab Irons - Roof 24"

Exhaust stack: Bend exhaust stack at halfway point as shown in photo 1
